Multi-skilled creator and content operator who blends storytelling, AI, and data to help founders and brands grow. I build short-form content and content systems, automate workflows, and turn ideas into shipped projects — working best as an embedded growth partner who owns an outcome end-to-end rather than a single task.

EXPERIENCE

Growth Partner · Desire Edits

Jan 2026 – Present

Creative content-marketing agency · Remote

- Onboard new clients through cold outreach and discovery, then own delivery end-to-end — from brief to final content.
- Built a custom **AI avatar** for a client and a repeatable content workflow around it, cutting production effort while keeping output consistent.

Content Creator & UGC · Hybridbanda (@hybridbanda)

2025 – Present

Independent creator & freelance · Remote

- Edited **120+** **short-form videos** across real estate, doctors, restaurants, fitness & lifestyle, with a distinct cinematic, story-driven style.
- Grew a **2,300+** LinkedIn audience documenting an unfiltered creator journey; produce UGC for brands (ONDC, EZO Billing, Digi Edu Learning, Beyond Foam, Brightso).
- Designed ads, brochures & social creatives — including AI-generated campaign visuals — for doctor and real-estate clients.

Founder's Office — AI & Content · Turing Med School

Jul 2025 – May 2026

Founder's Office Intern, then project-based contract

- Built the company's content pipeline and automated key marketing and operations workflows.
- Created website automations and contributed to website design; delivered a defined project each month on contract.

Co-Founder & Content Head · Beyond Foam

Feb 2024 – May 2025

D2C natural personal-care brand

- Co-founded a D2C brand of natural, powdered personal-care products; led go-to-market, content, and product iteration.
- Drove **500+** sales and **200+** organic customers via offline stalls and WhatsApp, validating demand through direct feedback.

Founding Member & Growth Partner · Blotic

Jan 2021 – Dec 2022

- Early founding team member; led content and overall team management as the company built its foundation.

Data Analyst · The Esthetic Clinics & Smollan (Client: Google)

2024

Consultant engagements

- Optimized the Kenyt CRM and built BI dashboards tracking sales, retention & ROI — enabling faster, data-driven decisions and automating internal workflows.
